

H.W 2:

9, 2, 1, 10, 8, 3, 7, 4, 6, 5

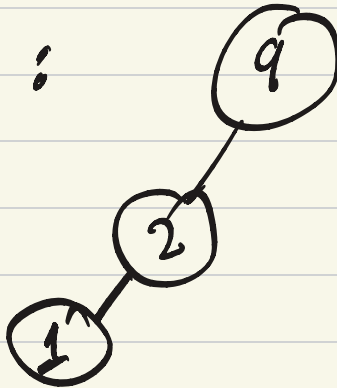

INSERT 9:

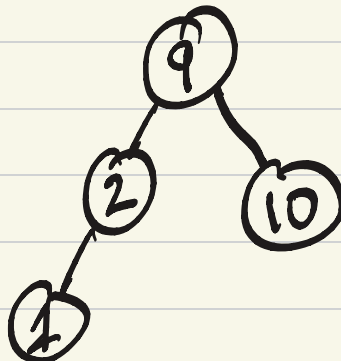

Now 2:

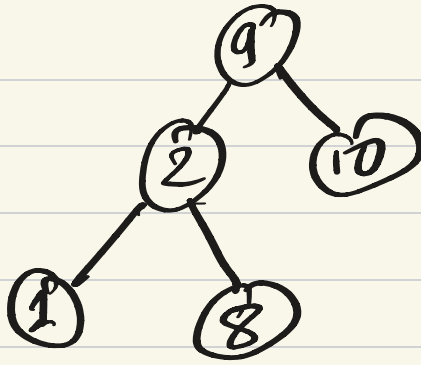

Now 1:

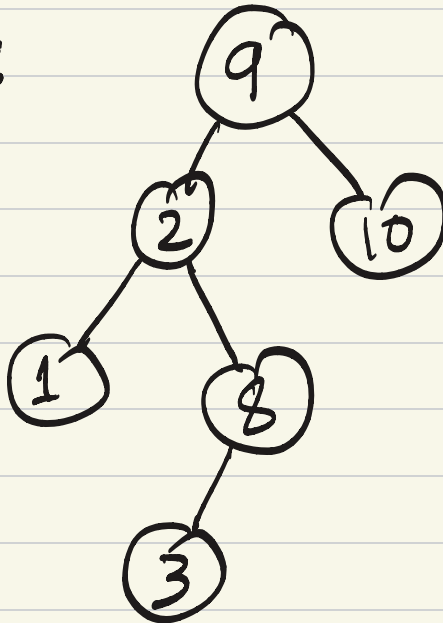

Now 10:

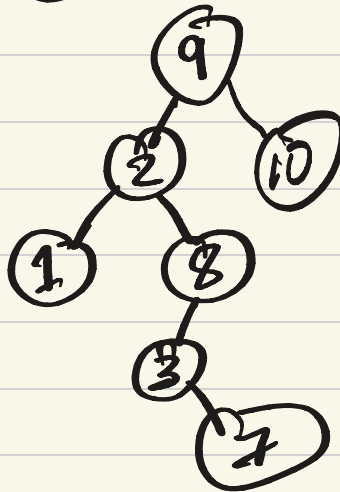

Now 8:

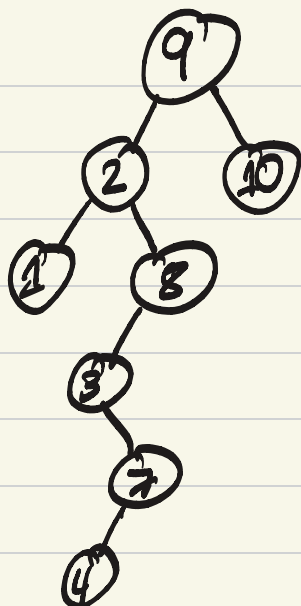

Now 3:

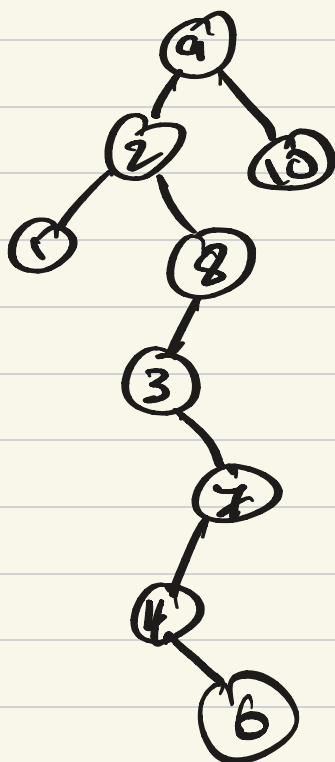

Now 7:

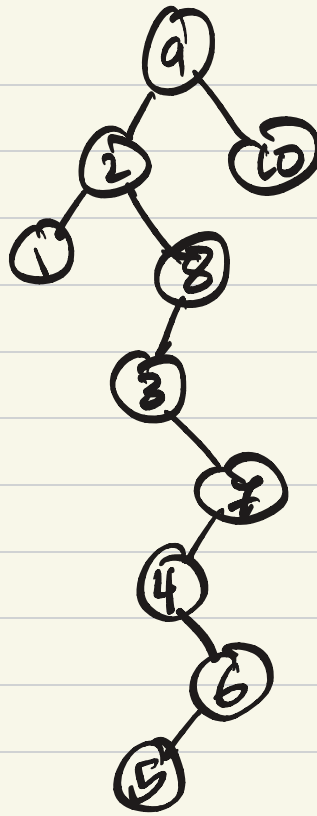

now 4:

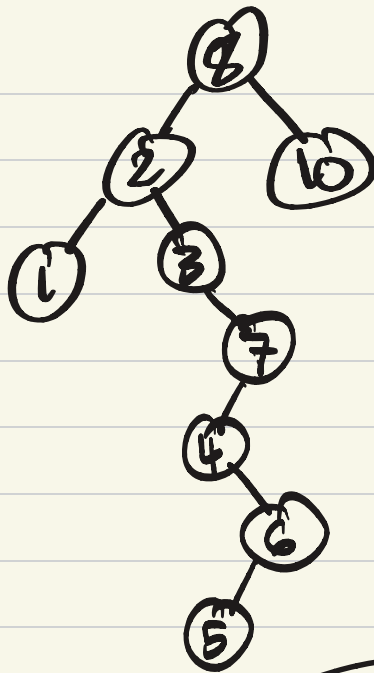

now 6:

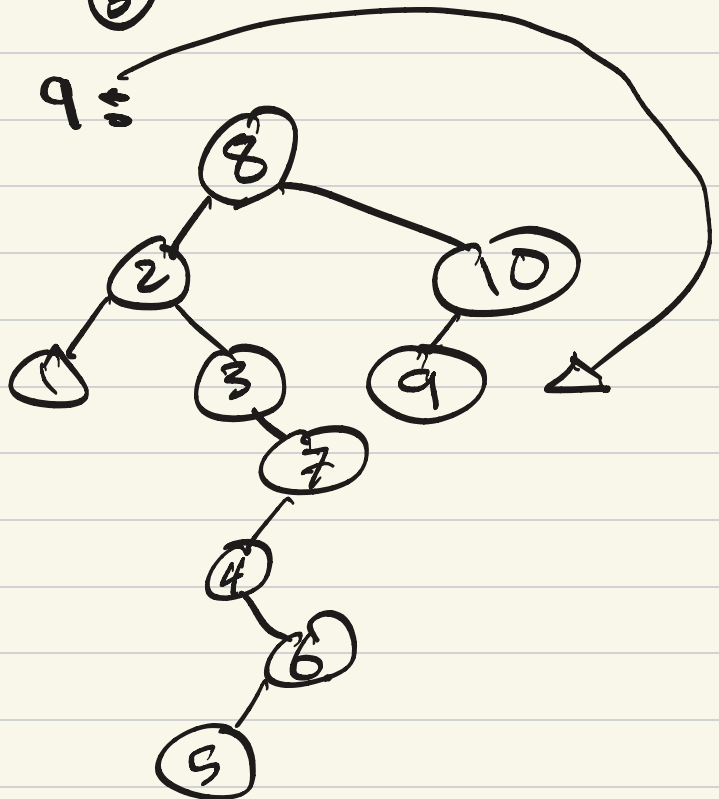

Now 5:

Now we delete the root
9 so the successor
should be the largest value
from the left subtree
which is 8.

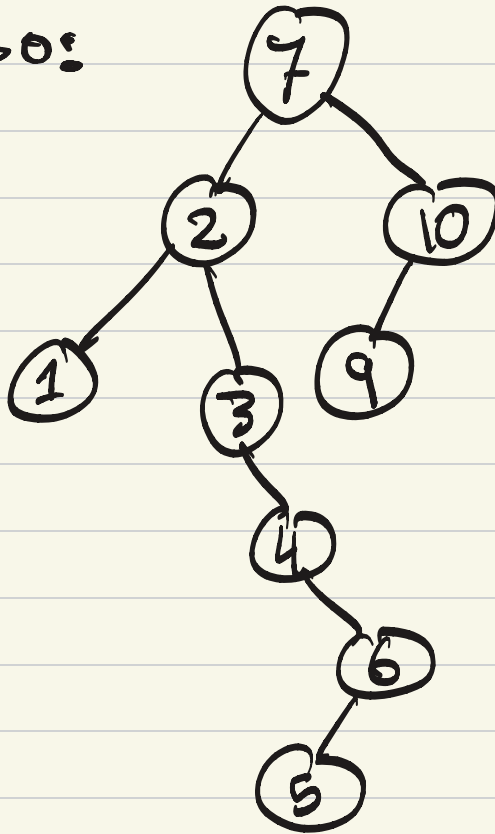

Insert the 9:

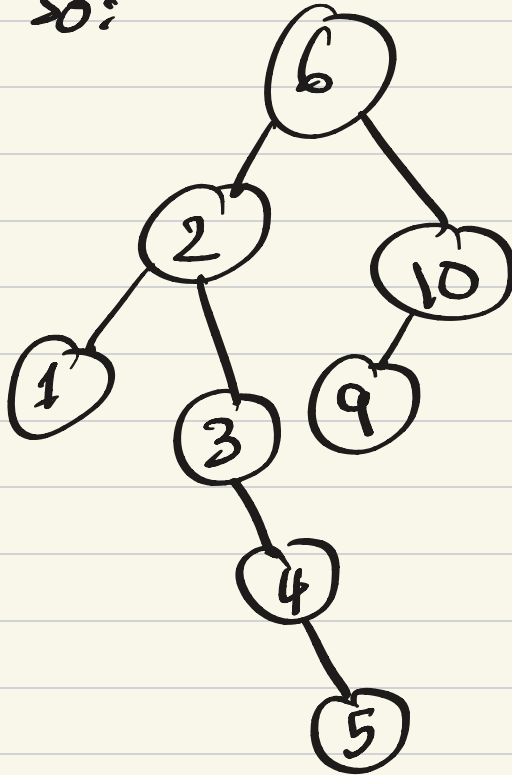

Now delete the root again;

the largest number in the left subtree
of 8 is 7

So:

Now delete the root again
and the largest on the left is
6 so:
